The work conducted between 31 March 31 and 30 June 2003 under this contract was devoted to the construction of two telescoping pole camera devices for our use during field inspections of bridges this up-coming summer field season and preparations for a first set of bridge surveys (conducted 14-19 July and discussed in the next quarterly report). Expenses charged to the project (\$2,185.68) during this past quarter were applied to salaries and benefits, supplies, printing, and overhead.

A breakdown of expenses follows, showing the total expenses in each category to date ("Previously billed"), and expenses charged this quarter, between 31 March and 30 June 2003 ("Billable amount this period").
